

SOLVEN SALT

EGYPT · ESTABLISHED SALINE FIELDS

GLOBAL SALT SUPPLY · PRECISION REFINING

SOLVEN SALT

CORPORATE PROFILE 2026

“NOT JUST WHITE.”

A global supply partner in precision-refined marine and industrial salt.

ABOUT US

Executive Overview & Leadership

Solven Salt stands at the intersection of legacy and industrial precision. Rooted in Egypt's richest saline fields, the company has built its reputation on a single premise: salt is a global commodity that deserves the same rigor, traceability, and reliability as any other strategic industrial material. From raw extraction to export-grade refining, every stage of our operation is engineered for consistency at scale.

Our leadership team combines decades of mineral-processing expertise with a forward-looking commitment to export excellence — positioning Solven Salt as a dependable long-term partner for food processors, water treatment operators, and industrial manufacturers across the region and beyond.

VISION

To be the most trusted name in global salt supply — synonymous with purity, precision, and uninterrupted continuity.

MISSION

To scale reliable exports from Egypt's premium saline fields, ensuring supply-chain continuity for every partner, every shipment, every time.

OUR SALINE FIELDS

Three strategic extraction regions anchor our national supply network.

Sinai

Coastal marine salt pans producing high-yield, mineral-rich crude salt.

Damietta

Our primary processing hub — washing, refining, and export logistics.

Siwa

Inland desert saline lakes, source of exceptionally pure rock salt.

HOW WE WORK

The Production Process & Quality Control

Every batch moves through a disciplined five-stage pipeline — from field to finished, export-ready product — engineered for consistency, purity, and zero-compromise quality control.

01

Raw Salt Harvesting

Crude salt is extracted directly from our Sinai, Damietta, and Siwa saline fields under controlled harvest cycles.

02

Advanced Washing Lines

Mechanized washing lines strip impurities and sediment, preparing crude salt for refinement at industrial scale.

03

Zero-% Moisture Refining

Precision drying systems reduce moisture content to near-zero, locking in shelf stability and product integrity.

04

Precise Grading

Automated grading separates output into fine, coarse, tablet, and industrial-grade fractions to exact specification.

05

Custom Packaging

Flexible packaging lines run from 25kg retail bags to 1.25-ton industrial jumbo bags, built to order.

OUR GOODS

Product Portfolio

A structured range engineered for three distinct demand segments — food-grade, water treatment, and heavy industry.

FOOD & DOMESTIC

Refined / Vacuum Salt

Ultra-pure, vacuum-processed salt for food processing, table use, and domestic consumption. Fine crystal structure with consistent granulometry and iodization-ready formulation.

WATER TREATMENT

Tablet Salt

High-purity compressed salt tablets engineered for water softening and treatment systems, minimizing insoluble residue and maximizing system longevity.

CHEMICAL · TEXTILE · DE-ICING

Industrial & Raw Salt

Bulk-supply crude and industrial-grade salt for chemical manufacturing, textile processing, and winter de-icing operations, available at full jumbo-bag volumes.

GLOBAL SUPPLY CHAIN

International Export & Global Logistics

Solven Salt ships from premium Egyptian ports into a global network of destinations, engineered with the same operating discipline as the world's leading maritime carriers.

Premium Port Access

Direct export lanes from Egypt's principal Mediterranean and Red Sea ports, positioned for rapid multi-region dispatch.

Customs & Documentation

Full customs documentation support — certificates of origin, phytosanitary and quality certificates — prepared for seamless clearance.

Maritime Logistics Compliance

Full compliance with international maritime shipping standards, container loading protocols, and bulk freight handling.

Multi-Destination Delivery

Coordinated multi-destination scheduling for consolidated and full-container-load shipments, minimizing transit friction.

TRUST FACTORS

Global Certifications & Compliance

A compliance dashboard reflecting our commitment to quality, environmental responsibility, and food-grade safety at every stage of production.

ISO 9001:2015

QUALITY MANAGEMENT

Certifies a rigorously documented quality management system across every production stage.

ISO 14001:2015

ENVIRONMENTAL MANAGEMENT

Confirms responsible environmental management across extraction, processing, and packaging.

FSSC 22000

FOOD SAFETY SYSTEM

Validates food-grade safety systems for our refined and vacuum salt product lines.

FDA Registration

U.S. REGULATORY COMPLIANCE

Registered facility status enabling compliant export into United States food-grade markets.

All certifications are maintained under continuous third-party audit and are available to partners upon request for procurement due diligence.

PARTNER WITH SOLVEN SALT TODAY.

Premium quality guaranteed.
